

ANGELX
AN **E3X** GROUP COMPANY

CORPORATE **PROFILE**

OUR COMPANY

AngelX is an innovative corporate digital marketing and promotions brand specializing in providing our clients with cutting-edge turn-key solutions to achieve their target markets. How AngelX differs from the standard digital marketing firm is that our innovation is inspired and geared to provide solutions that surpasses the standard offerings that are readily available in the industry.

Through a careful selection process, our portfolio of products and services are crafted to cater to the growing “smart” generation. By infusing cutting-edge technology in our delivery, we empower our clients to both disrupt standard marketing practices and reach your true market potential by reaching previously-untapped gaps.

AngelX is a subsidiary brand operating under the parent company E3X Global Group of Companies. E3X Global is a well-known and internationally acknowledged company in the industry of satellite communication technologies, mobile platforms and creative solutions. Over the past few years, we have expanded our reach beyond Sri Lanka, and now have locations in Singapore and USA. Expansion of the company has manifested as a result of years of experience, credibility and excellence.

Digital Advertising on Premises: Smart Screens

Despite the rapid growth of the digital world, televisions are still one of the fastest ways to reach the widest markets. To tap into today's market gaps, you need to go beyond plain print-media, and use a digital platform to ensure you receive maximum visibility and make an impression with your target markets.

Our solution for on-site advertising caters specifically to foot-traffic through your business. With well-placed smart screens in your customer service waiting areas, our screens allow you to continuously loop video advertisements that you can select.

The smart screens contain an integrated 3G wireless internet connection, which is used to upload all your content to these screens through our proprietary Centralized Management System (CMS), which can be accessed remotely. The CMS allows you to broadcast media to be played at all your screens or can update your content to specific screens only. Our digital advertising solution also allows you to customize the preset layout, and incorporate features such as tickers which will display custom information.

OUR **PORTFOLIO**

KOYA Lifestyle Products

KOYA™ is a suite of lifestyle products that caters specifically to improve your business's performance through strategically enhancing your customer service through integration with technology.

Our most widely-used solution is the KOYA™ wireless calling system. This system utilizes a series of wireless connected devices to help streamline workflow and capacity for customer service. The devices include fixed self-powered wireless calling buttons, that are using to request for assistance within your retail floor space or office, and smart watches that are worn by your customer service agents that alert them to specific buttons that have been pressed.

KOYA™ has a number of application in a variety of sectors, including supermarkets, hospitals, retail stores and restaurants. The success stories have proven that our suite of products have increased efficiency, reduced turn-around times and enhanced the customer service experience to your customers.

Corporate Giveaways: Custom USBs

A corporate giveaway is something that should be well-thought out, as it will represent your company in the hands of the receiver. Corporate gifts such as paper-weights and pen holders are now too common and no longer have the appeal in today's digital age. USBs are a very useful gift, that is sure to be used by the receiver and is bound to bring your company's brand to the attention of large audiences.

When we mean customized, we truly mean it. To suit your requirement, we provide custom 3D molded-rubber USBs in almost any color, shape, and size, to best outfit your corporate identity. The quality we ensure is of the highest international standards, so you can ensure they will last a long time and is sure to be a spectacle to your valuable audiences.

OUR **PORTFOLIO**

Corporate Giveaways: Magic Mugs

A customized mug is always a great gift to give a customer or client, as they are generally placed on the desk of the receiver. AngelX offers the highest quality of magic mugs; mugs which appear to be plain-colored at 1st glance, but changes to a design of your choosing when a hot beverage is in the mug. We take special attention to make sure your corporate identity is maintained on the design of the mug.

Just add a hot drink!
